General Collecting Points Way To Pleasure, Benefits, Without Heavy Outlays Of Time, Money

John L. Briggs, Jr.

Week before last, in jawing with some of you newcomers to stamp collecting, I expressed the hope that you'll stick with general collecting for quite awhile before branching out into some one field of interest. I passed an opinion, shared by most of the true philatelic experts, that some time spent in solid general collecting is the surest way to build a lifetime of pleasure from this hobby.

is the surest way to build a lifeting In addition, when that first-flush of enthusiasm over your new specialty hits you, please don't turn your general collection over to your kid brother or the corner stamp dealer. Keeping up your general collection gives you the best foundation for being able to evaluate other collectors' exhibits. exhibits.

Moreover, in your general collection you may some day find the nucleus of a new interest you wish to take up. And a lazy hour or two mounting stamps in your space-printed world-wide albums can give you some needed relaxation occasionally from the necessarily more detailed study required by your specialty.

Now, I'm not suggesting that you put a lot of money into your general collection, once you begin a specialty. Most of us can't afford to do that. Sure, you'll buy an occasional set that especialty appeals to you. Or you'll spot a bargain no one could resist. But for the most part, nearly everybody finds he has to concentrate his cash pretty much on the specialty alone, if he hopes to make any kind of showing.

Nevertheless, you can probably develop a few no-cash sources for general collection material. Right now I'll bet you have stuff hanging around in drawers and boxes. May I earnestly suggest that you write down a definite date with yourself on your engagement pad

Soak the stamps off, sort them out, mount them into your space-printed albums. Put the worth-while duplicates (5c and up) on stock pages for quick identification (for information about how to put these dupes to use, see below), and get rid of the junk to the neighbors' kids.

And then, make yourself a New And then, make yourself a New Year's resolution: don't ever again let such material pile up. One of the objects, remember, is relaxation. You'll get it by doing a little bit often, not by tackling mountains of stuff as an infrequent and arduous chore. Here's one trick, for what it's worth, to play on yourself:

Never tuck unsorted stamps in-

Never tuck unsorted stamps into drawers or boxes, even "tem-porarily" (it never is). And don't get that sloppy habit of slipping get that sloppy habit of slipping loose stamps or envelopes into your album for later mounting (you'll put it off indefinitely and they'll slip out somewhere along the line). Leave it all out on top where it gets in the way, and you'll soon do with it what should be done, just to get it out of your way.

First Of Four FD August 27 At Freeport Recalls Debates; Geophysical Stamp Will Be 3c

The second in the set of stamps in honor of Admiral Tamandare was released by Brazil on March 7. It is an airmail in a denomination of 3.30Cr. — printing is in blue green, the design showing an aircraft carrier recently acquired from England.

It should have been issued last December 24 when the regular value was put on sale. It is the first commem which has a special first day postmark prepared by the postal administration.

On March 18 there appeared a 2.50Cr. commem in red in tribute to the nation's Marine Corps. It publicizes the 150th anniversary of the military unit and has a bugler and the coat of arms of the Corps in the design.

Second Printing Of Harris Catalogue

That the stamp trade is in a sound healthy condition is fully evident from the fact that H. E. Harris & Co. of Boston, Mass. have found it necessary to reprint their 1958 United States Catalogue. The demand has been so heavy that the original first edition has

in the most simple form just single copies of each stamp used and unused without any attention to the confusing minor and fly speck varieties so that there is little difficulty in identifying any item. The illustrations are clear and clean. Each stamp is numbered according to the Scott Catalogue so that one can order from ad-

vertisements and know just what he is ordering.

GEORGE W. LINN

We have made a comparison of prices with the Scott Catalogue and also with the popular Gibbons list of U. S. stamps. It is to be noted that the Harris prices are nearer to Gibbons than to Scott. Scott prices are very much above those of Harris. This of course can be accounted for by the condition element which is the greatest factor in stamp prices. This is more true of the earlier issues than of the later commemoratives which are usually found in fine condition in a plentiful supply. However in these the Scott prices are much above both the Gibbons and Harris prices which are pretty much neck and neck. Speaking of catalogues alone, the Harris is the only one which is published by a dealer who has a stock of stamps and offers to sell at the quoted prices. As for the earlier issues Harris prices would seem to be more in line with the average auction price for good average copies.

Besides listing both used and unused singles the catalogue also prices plate number blocks, plain blocks, first day covers and even a large list of complete sheets. It includes also all of the popular categories such as Departments, Dues, Air Mail, Ducks, Revenues, Envelopes and Postal Cards. Among other features are several pages which explain the minor varieties of the earlier issues as well as a readily understandable explanation of flat plate prints, rotary press prints, offset prints, etc. Any collector can understand these with the help of the information given.

Besides the United States listings there are Confederates, Canal Zone, Hawaii, Philippines, Cuba under U. S. Jurisdiction, Guam, and United Nations.

You will also find Canada and British North America which are almost as popular here in the United States as our own issues.

What we like best and most about the Harris Catalogue is the low price of 25c postpaid. Every collector can afford to have a copy. Order from H. E. Harris & Co., 108 Massachusetts Ave., Bos-

Wants Christmas Stamp

Several clippings have come to our office wherein it is stated that Representative Robert L. Sikes, (D., Fla.) has asked Postmaster General Summerfield for a postage stamp picturing the birth of Christ to be issued at Christmas time.

Representative Sikes apparently does not know that it is against the policy of the Department to issue any stamp with a religious background.

It is for this reason that we have repeatedly asked for a Santa Claus stamp for the Christmas season. Santa Claus is not a religious character, but a symbol of good will, tolerance and good cheer. He is also worshipped by the little children of many nationalities and beliefs and a stamp picturing this jolly little fellow would do much to create a cheerful Christmas spirit not to mention helping the holiday business of merchants from coast to coast. What a splendid thing if we could all mail our Christmas cards with a Santa Claus

Wax Paper Damages Stamps

There is much to be learned by some people who handle stamps that are sold to collectors. We have from Mr. E. L. Patterson of Navarre, Ohio a couple of pieces of waxed paper. This material, as finish which greasy when it gets warm. That is, the wax surface will disintegrate with warmth and then solidify again when it cools. As a result this will come off on stamps and make what appears as a grease spot. Ordinary glassine paper will not do this and apparently some people who have need for a paper to put between sheets of stamps to keep them from sticking have used wax paper rather

Mr. Patterson found this to be true with a quantity of stamps he received from the Ghana Philatelic Agency-some of the stamps became spotted from the wax paper interleaving. Mr. Patterson also noted that the souvenir sheet, the rare No. 38 of the United Nations, originally came to him with a wax paper interleaving. If you have a quantity of these remove the wax paper immediately or yours may become soiled from this wax paper interleaving.

For the information of collectors who may not fully understand just what is the difference between wax paper and glassine paper it can be noted that most of the bread you buy in stores is wrapped in wax paper. Do not use it between your stamps sheets. **SMILEATELICS**

U.S. Domestic Money Orders Void In Guiana

The Post Office Department cautions that domestic U. S. Postal money orders may no longer be used to send funds to British Guiana. Under arrangements effective January 1, 1958 between the United States and the British Colony in South America, only international money orders may now be used in making postal re-mittances to this colony.

Many postal patrons still do not know about this change and are using the regular domestic U. S. form to send money to British Guiana. These domestic forms will be honored through March, but starting April 1, 1958, the British Guiana Postal Administration will no longer accept money orders from the United States on the domestic U. S. card form.

All such orders will have to be returned to the senders in the United States to obtain a refund. By publicizing the change, pos-tal officials hope to avoid this in-convenience for many persons.

TO YOU IN THE NORTHWEST:

WE'RE GOING RUBBER-NECKING

During June and July Mrs. Apfelbaum and I plan to tour the Central and Western border states and ad-jacent provinces of Canada. We want to see the sights and meet the stamp collectors living in that area.

We will try to include stops with fellow philatelists, who would like professional advice about their collections or the sale of their holdings. We will have nothing with us to sell. But we will be glad to buy suitable material or arrange for its sale on commission in our fall and winter auctions.

In addition, I shall be available to talk to a limited number of stamp clubs along the way.

If you would like us to visit you, or know of semester else who might please drop us a line. We may be belyful, and certainly it will be nice to meet you.

OLIVER R. MOWERY

CARL P. RUETH

In this edition you will see the reproduction of the design for the Geophysical Year commemoration. Last week we pictured the design for the forthcoming James Monroe recognition, and already issued is the Gardening and Horticultural on March 15. This trio has one notable thing in common.

The designs stink!

That's putting it bluntly, indelicately and aptly. If this is art the evidence indicates we need artists.

need artists.

need artists.

Spokesmen for the Post Office
Department have stated that all
of the 1957 designs were still
within its province. However the
1958's are the babies of the Citizens' Stamp Advisory Committee.
Are these people totally bereft
of artistic perception and good
taste? There are supposed to be
three topnotch artists in that
group — the authorized designs
have more of a kindergarten
flavor.

three topnotch artists in that group — the authorized designs have more of a kindergarten flavor.

With this kind of a thing going on I get the distinct impression that one or two of the Committee are cramming something down the throats of the other five. I don't believe it is any of the artists who are doing the "dictatoring"; it has more of the earmarks of the philatelic section of this panel.

The Committee has done well in the selection of events to be recognized with stamps. It is my thought that their activity is going to have to be confined to that chore. The designs are going to have to be along different lines. We are going to have to do away with accepting suggested pictures from "we want a stamp committees"; designs are going to have to originate within the Bureau where the people know the scope and limitations of the engraving medium and who have a pretty decent record of stamp art when they were left unhindered and unhampered by outside interests.

A very high up personage in Bureau of Engraving and Printing affairs had the following in a recent letter —

"Just had a look at the design for the Geophysical Year stamp and the first thing I know I am liable to start shooting off my mouth about designs too with all the rest of you lads! Outside of some esthetic objections to the darned thing (or ain't I supposed to have any?) I can't for the life of me at this point see how in the h--- the Bureau is going to do a decent job with it.

"If the POD would only wise up to the fact that the Bureau has a corps of specially trained designers for intaglio work, and would give them some freedom of movement, I feel certain that

in the local that the Bureau has a corps of specially trained designers for intaglio work, and would give them some freedom of movement, I feel certain that the results would be interesting. If nothing else it would be tied to the capabilities of the presses and the method of printing.

"Too frequently in the past the Bureau men have been given a restricted design — that is, restricted in the sense that it was already worked out and all they have been permitted to do was to translate it into engraving with maybe a small arrangement here and there.

"If they were just given the subject or the purpose for which the stamp was to be issued and allowed to use their own creative ability from there on I personally think they would do all right."

I'm in favor of giving the Bureau artists a wide open opportunity — surely they can be no worse than what we have had over the years. Don't even give them anyone's ideas or sketch — let them start from nothing except the background of the person or event to be commemorated.

son or event to be commemorated.

1. Mirror Lake in Washington seen on what stamp? 2. Which stamp shows Lock No. 5 on the Monongahela River?

The first set of stamps in a long time is to come in connection with the 150th anniversary of Birth of Abraham Lincoln. As of the moment, the POD states there are to be four of them — designs covering high spots of his career.

The first will come this year on August 27 at Freeport, Ill. where the second of the famous Lincoln-Douglas debates occurred. The second is scheduled for February 12, 1959, the actual birth anniversary. The first set of stamps in a

I hope none of you have gone hog wild in buying up a lot of the 20c Liberty in the dark blue color. Apparently this shade is now current all over having superseded the ultramarine in which the item was released originally.

Milford H. Mattison of Davison, Mich. sent an editorial from the Grand Rapids Press which has a few words about the forthcoming Paul Revere regular. Under the title of History On A Stamp, it says—
"When Longfellow wrote his

"When Longfellow wrote his poem about the 'midnight ride of Paul Revere' he fashioned a myth, the myth being that Paul got to Concord. He didn't. The British caught him before he could reach the city. But one of his companions, Dr. Samuel Prescott, did make it. Dr. Prescott and the other member of the trio of nocturnal riders, William Dawes, are little known; Paul Revere is the only one to have achieved lasting fame.

"And it will be Paul Revere's

achieved lasting fame.

"And it will be Paul Revere's likeness that will appear on a new 25-cent stamp to be issued April 25. The St. Louis Post-Dispatch thinks that the least the postoffice could do for history would be to show all three riders. And in all fairness we must concede that Dr. Prescott and Dawes deserve better of history than they have received. But unless the postoffice were prepared to issue a small booklet concerning the ride to Concord, it probably would create only confusion by depicting three riders on the stamp. And confusion piled on myth would serve neither history nor the postoffice."

Jesse G. Johnson of Norfolk, Va., a retired U.S. Navy admiral, and a topnotch collector and promoter in his part of the world, sent a clarifying letter about what I have heretofore called the Jamestown commem, one of the 1957 issues. He says—
"I note the comment in your

"I note the comment in your column . . . stating that the Jamestown issue was not very good because it was tied in with the International Review. Please get the word out to your readers that this was never intended to that this was never intended to be a Jamestown stamp. It is an Innternational Naval Review commemorative . . . the seal of the Jamestown Festival . . . was placed there only because the International Naval Review was one of the events of the James-town Festival

one of the events of the Jamestown Festival.

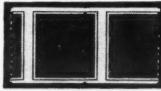

". . . The background for all this was that the Post Office Department was adamant that they would not issue another Jamestown stamp . . because they had already issued three Jamestown stamps in 1907 for the 300th anniversary of the Jamestown Landing. That seems plausible to me and we, here in Norfolk, were certainly extremely fortunate to have a stamp issued for the biggest event we had in this area in many years."

Let us say that the Naval Re-

Let us say that the Naval Review was worthy of a commem. However, the mere fact that three stamps were issued in 1907 for the Jamestown Landing should be no reason that at least the mere good not have been one more could not have been released 50 years later. One further remembrance after half a century for the new generation to enjoy is not asking too much.

Jamestown is top grade historically — if a stamp every 50 years helps educate our people to it, well and good.

The item you see here is what is called an "Experimental Coil". It was supplied for illustration by Willis F. Cheney, a New York City dealer who has a supply of

The colored area, in purple, consists of cross-hatched lines. 1954.
They are presently being used in other development work.
The Bureau has acknowledged Versary.

More is to come later on this.
The big news is that collectors are getting a set. Let's hope that I have seen the letter. How they the designs and the colors are got out into circulation is known

Club of Cleveland staged a really nice affair on the March 21-23 week end. It was host to the first midyear meeting of the American Philatelic Society with an exhibition, bourse and banquet. It was such a successful event that APS prexy Charles Cratsenberg announced at the banquet Saturday evening his officers and board are in favor of continuing the practice. Incidentally, every officer and director of the society was there with on e exception, and he was ill. They came in from all over the United States and Canada.

The exhibition in my opinion was much better than the usual run. Material was supplied by members of G-P — some highly specialized and some popular. I had to look the displays over the "hard way" — as chairman of the judges in company of fellow judges Frank Pfahl and Vincent Greene (of Toronto). The club had a beautiful lot of trophies to inspire the best, and the best was what appeared.

inspire the best, and the best was what appeared.

The POD was well represented at the first day of the Giori & Liberty with Franklin Bruns, Director of the Division of Philately who made the dedicatory talk. Stanley Hodziewich, curator of the Department's philatelic museum; and L. Rohe Walter, special assistant to PMG Summerfield who spoke at the evening banquet.

LYLE CLARK

A first day cancellation on the new 8c "Giori" Liberty Is shown on the 4c international postal card along with the other three bicolored 8-centers. From left to right they are the 1954 flat and rotary printings, the Fipex pane, the "Giori" and, finally, the 4c postal card.

About Those 8c Liberties

While it is well known that the 1954 printings of the original 8c red and blue Liberty stamp were run off on both flat and sheet-fed rotary presses, no method is yet known to distinguish between products of the two printings other than by comparing plate numbers. Unlike previous issues in both flat and rotary printings (Harding and Edison, for example) the 8c items have no distinguishing characteristics as to gum breakers, slight stretching of the design, or otherwise.

or otherwise.

The present third printing (on the Giori press) has ample changes in the design itself to proclaim its individuality. The most apparent is the slight lowering of the torch to permit its flame to rest beneath the "PO" of "POSTAGE" at the top of the adhesive instead of between that word and the preceding "U. S."

The following list of known plate numbers of all three varieties should be helpful in separating the flat and rotary earlier printings.

	Blue Frame	Red Vignette

Returning to the 1954 varieties, the Post Office Department reported that the rotary printing is the more sought after of two. Of it 470,940 panes of 100 stamps were printed, of which 379,536 were assigned for distribution to post offices throughout the country. Thus at most only 90,504 panes of 100 were available through the Philatelic Agency.

Austria Starts Airline Service

Austria has reactivated its Austrian Airlines and to mark the occasion has released a 4 Schillings airmail which serves a double purpose. Also noted is the 40th anniversary of the first Austrian airmail service established March 20, 1918.

The mail route was from Vienna to Cracow, Lwow, Proskurow, Kiev, Odessa and return.

Release was made on March 25 with the validity for postage coming on the 27th. The color is red.

In the design is shown a Vickers-Vicount passenger plane and a map of Austria. It is the work of Alfred Chmielowski. H. Tony Schimek did the engraving.

Printing was at the Austrian State Printing Works, Vienna, 50 subjects to the pane, in a quantity of 3 million.

The Austrian Airlines (AUA) had been out of business since Hitler's occupation in 1938.

Notes From Israel

Pierson Ostrow

Cancellations - commemora-Cancellations — commemorative, publicity, propaganda, but still cancellations—are the news of the moment from Israel. In the past several months the rising young nation used several of

them to note things of interest to historian and philatelist alike.

There were a new post office—floating variety—a 50th anniversary of a town, a plea of less city noise, airline activity, a nod to a growing merchant fleet that is doing everything but nod, and a bow to the atomic age in general

noise, airline activity, a nod to a growing merchant fleet that is doing everything but nod, and a bow to the atomic age in general and Israel's interest therein in particular. In detail:

The ever expanding Israeli postal system is reflected in the December 10 cancel used aboard the SS "Jerusalem" on the occasion of the opening of its new floating post office. The Beer Yaaqov Post Office (No. 1) went into operation on January 1.

Two important public events were marked with special cancellations. Beer Yaaqov, which received its new postoffice on December 10, celebrated its 50th Anniversary on December 19, nine days later. A pictorial cancel, featuring the commune's coat of arms, marked the happy occasion. On January 8 a cancel featuring two hands, with fingers symbolizing the language of the mute, called attention to the inauguration of the Helen Keller House at Tel Aviv.

Two more special cancels promoted civic drives. One, on December 15, urged the importance of renewing radio licenses in time. On January 15, a pictorial cancel urged Tel Aviv's citizens to avoid unnecessary noises (even as in such large cities as our own New York)!

Meanwhile, some older phil-

tanic" was assigned a special cancel when it visited Haifa Harbor on February 16. This is the second time that such a cancel has been assigned to the same ship. The first time was in 1954.

On November 29, a special flight took place between Lod Sede Teufa and Bombay, India. Israel's national airline, El Al, initiated its first jet-prop flight to London on December 22. Special cancels marked both occatheir counterparts in ANY country.

By 1960, an expansion program should add another 31 ships, boosting Israel's "dead-weightatelic items are recalled by the ton" capacity to 600,000. This is daily newspapers. Israel's Mari- only a small part of the program. time stamps were not merely an Israel now carries about a third

Israel is also making progress as a scientific center, putting to productive use the traditionally analytical Jewish brain. On September 8, 1957, a special cancellation called attention to the fact that the Weizman Institute of Science at Rehovoth was acting as host to an International Conference on Nuclear Structure.

Now comes word that the same institute is getting ready to open an ultra-modern nuclear physics building. Bezalel Academy, honored recently with a special stamp, is also growing. It has now opened an Academy of Fine Arts, to serve post-graduate students in "pure" (as opposed to "commercial") art forms. The Academy will turn out artists, sculptors, and art teachers, and will draw upon the services of such eminent artists as Aschheim, Eisenscher, Gross, Steinhardt, Stern and Vitkin. scher, Gro and Vitkin.

Notes From The Italian Area

Pierson Ostrow

Nine sports stamps (6 regular postage and 3 airmails) will be issued in Italian Somaliland during the first half of April. The exact date of issue and the colors have not yet been announced. The series will consist of regulars of 2, 4, 5, 6, 8, and 10c values and airs of 60c and 1.20 and 1.50 Somala.

airs of 60c and 1.20 and 1.50 Somala.

It is of particular interest that all the athletes are unmistakably Negro, while all of the designs show Arab buildings in the backgrounds except for the 8c and 1.20S. The former shows an Olympics stadium and the latter shows what also appears to be a modern sports stadium. The designs are the work of Engineer Corrado Mancioli, who has come to the fore in recent years as one to the fore in recent years as one of Italy's foremost stamp design-

of Italy's foremost stamp designers.

Two older Italian area issues assume topical importance by reason of recent news releases. In 1953 the Vatican issued a set of two stamps in honor of St. Clare. On February 17 Pope Pius proclaimed this same St. Clare "Patron Saint of Television". The story is that from her sickbed at Damiano on Christmas Eve of 1252, she saw and heard a midnight mass that was being celebrated some two miles from her bedside, in the Basilica of St. Francis. In short, television in the truly grand manner!

The more recent (February 1, 1958) Sardinian reclamation stamp is in the news through developments more mundane but of more immediate and vital concern to several million Italians. On February 7 an Italian mission reached New York. Its purpose: to negotiate a 75 million dollar loan from the International Bank for Reconstruction and Development at Washington. Purpose of the loan: to reclaim further the depressed areas of Southern Italy, Sicily and Sardinia. Head of the delegation was Dr. Gabriele Pescatore, President of the "Cassa del Mezzogiorno" (Fund for the South).

Dr. Pescatore was successful. He got his 75 million dollars to add to the 175 other millions received from the same Development Bank since 1952. Sardinia can now count on new dams, new sources of needed electric power, ers.

Covers Damaged In **Antarctic Base Fire**

With the great interest in IGY and polar activities, and the effort being made to cover all of them philatelically, it is to be expected that something unusual would result. An event which took place recently at one of the Chilean Expedition's Antarctic bases has resulted fortunately for certain of the collectors who had arranged for covers to be postmarked there.

Full details and figures are not

Full details and figures are not Full details and figures are not known, but it has been learned that a fire at one of the bases damaged at least some covers. C. W. Slaybaugh, New York City, has submitted three envelopes showing two or more burned off corners each, with edges more or less burned and charred. Fortuntally of the eleven stamps thereately, of the eleven stamps there-on none is damaged other than by limited smoke staining.

Each cover bears two neat hand applied cancellations reading "O'HIGGINS CHILE" around a circle and "ANTARIDA / 12 DIC 57" across the center. The trio was accompanied by an authenticating letter from Santiago which explained the circumstances and apologized for the burned condition.

So also can that barren, neglected area of Southern Italy known as the Abruzzi, Calabria, Apulia and Basilicata—all of that sodden, sun-baked region of which Carlo Levi once said that "Christ stopped at Eboli" because, further south, the land had been forgotten. Slowly but surely, it is coming to life again.

Heartwell Cachets Offered In Sets Of 3

The Heartwell PO Station, Rutland, Vt. celebrated its opening day on February 13, 1956, with a special cachet. This station is unique in the privileges it enjoys from the POD authorities in Washington because of its devotion to the care of heart patients.

tion to the care of heart patients.

A second similar cover was issued February 13, 1957 to mark the first anniversary of the station, and early this year a third cover of the set was produced. This last was offered only in conjunction with the sale of a Heartwell Almanac at \$1 minimum, and enjoyed wide popularity.

The Association now reports that in checking their supplies they have found a number of coverage of the sale of the sale

400th Anniversary Trio For Chilean City

The 400th anniversary of the founding of the city of Osorno, well in the southern part of Chile, was noted on March 23 with the issuance of a set of three monochrome stamps. They were placed on sale on the first day of a large stamp exhibition held in that city March 23-30.

The stamps show the city's coat of arms on the 10c red, Garcia Hdo. de Mendoza on the 50c green, and Admiral Ambrosio O'Higgins on the high value 1 Pesco blue. The three were ue 1 Pesco blue. The three were produced in normal sheet form, with a second printing in a souvenir sheet in brown different from the colors of the originals. Only 3000 such were prepared, and they were sold on a complicated basis at 15P. each. The actual face value of the three stamps is under 25c U.S. Chile also contemplates a pair to note the Geophysical Year and a "long set" devoted to Antarctic subjects, according to Victor Vargas, Clasificador 712, Santiago, Chile.

Masonic FD Cachets For Revere, Monroe

Three unusual Masonic cachets will be available in the coming weeks. They will coincide in two instances with the releases of two U.S. stamps featuring Masons of the past, Paul Revere and James Monroe.

Monroe.

The third was canceled on Washington's birthday at the Masonic Shrine, Arlington, Va. Its printed cachet shows the chair in which Washington sat as Master of his lodge in Virginia. The Revere and Monroe cachets will be engraved and a card will be enclosed in each cover giving interesting date.

The Washington covers are now in stock and will be released along with the two yet to come, in units of three. Orders will be filled after the issuance of the Revere and Monroe stamps on April 18 and 28, respectively.

The covers must be ordered before mid-April, in sets of three at \$1 per set, 6 sets for \$5, from Masonic Cachets, Box 244, Pleasantville, N. Y. In view of the high face value of the Revere adhesive, no covers will be serviced above the quantity ordered.

Bowie Knife Expert On HouPex Cachet

On HouPex Cachet

The Houston, Texas Philatelic Society has scheduled its 13th annual stamp exhibition and bourse "HouPex" for April 19-21 instead of the usual Friday to Sunday, in order to include Monday the 21st. This is San Jacinto Day, a high point in Texas history, and it will be suitably observed throughout the state.

This year the group will sponsor a cachet as usual. The new design will feature a great hero of the state and entire southwest—Col. James Bowie. Hero of pioneer struggles in Arkansas, he had moved along to Texas to aid in her struggle for independence. He helped buy it with his life, dying at the fall of the Alamo. A brief history of his life will be included on a filler in the cacheted envelopes.

Bowie is remembered also in connection with a particularly

That terrific snowstorm which paralyzed the Eastern Seaboard March 19 made itself felt indirectly all over the country, even in the mail-order stamp business. J. Edward Warner of the Continental Stamp Co., Box 1783, York, Pa. reports he was without light and heat for three days, no mail for one, so he will be a bit behind with writing and filling orders for a few days.

Jim. F. Webb, 43 Mackay Dr., Richvale, Ont., Canada, has just published the March 1958 edition of his "Webb's Canada and BNA of his "Webb's Canada and BNA Catalogue" including listings and prices of just about everything in the BNA area, with a comprehensive showing of Canadian plate blocks. With 36 pages 6 x 8½ in size and well illustrated, the volume is still priced at the long established figure of 25c, postpaid. postpaid.

Harry Blue, long established at a 34th St. address in New York is now located in his new quarters, Room 610, 110 W. 42nd St., New York 36. The place, he says, is new and larger, but the same old friendly atmosphere remains. Copies of his "BLUES NEWS" are available for the asking, and a fine stock of U. S. is on hand to fill the want lists of the most discriminating collectors.

Pat O'Neil, 52-30 Revere Rd., Drexel Hill, Pa. wishes to amend an incorrect offer in his ad of March 17. In hustling to be first with offering the Korea Christmas set of three, a price barely more than one third the correct figure of 45c per set was quoted. This figure was far below cost, and orders can not possibly be filled at it. Korea collectors please note.

DAY OF THE POSTAGE STAMP - 1958. Each year France, as do DAY OF THE POSTAGE STAMP - 1958. Each year France, as do several other countries, issues a commemorative as a tribute to the hobby of stamp collecting. This year's appeared on March 15 along with a special postmark applied at Paris. In dark brown and olive green the stamp, a semipostal (15fr.+5fr.), pictures a rural scene and three forms of mechanical transportation — motor truck, bicycle and motorcycle. The postmark reproduces these same vehicles. The cover was sent by Pierre A. Cubells, 2 Rue des Graviers, Soissons (Aisnie). France (Aisnie), France.

The arrival of the stork is usually a time of rejoicing, and so it was on February 18 when stamp dealer Walter Rozmin, 1452 West 103rd, Chicago 43, Ill. had to hustle his wife through a snowstorm to the hospital at 4.30 a.m. Results: a 10-lb., 8-oz. girl—and a relapse for Mr. Rozmin's attack of the "flu". He is now back in harness, and asks collectors for time to catch up with orders and mail. ders and mail.

Syrian Threesome Of Symbolic SHELRON CO. Design Issued To Note Recent Afro-Asian Jurists' Conference

Bruce Conde

In discussing the Pan-Arab Lawyers' Congress commemoratives in the January 13 issue of this paper, the writer mentioned the Syrian president's plan to extend the deliberations to the whole the Syrian president's plan to extend the deliberations to the whole Afro-Asian group. Syria's prolific commemorative producing Post Office Department took advantage of President Quwatly's invitation to the Bandung Conference nation's subidiary Lawyers' Conference to meet in Damascus. The new event took place in Damascus between November 7 and 10.

The scope and results of the gathering were similar to those of the Pan-Arab attorneys' but embraced larger geographical areas. There is no doubt but that the former colonial areas of Asia and Africa are becoming a force to be reckoned with in modern geopolitics.

politics.

Moreover, their growing pains as newly independent nations and their primary desire to end all remaining vestiges of colonialism in their part of the world—which contains the bulk of mankind—must receive sympathetic understanding and cooperation by the west if we are to save them from falling into the clutches of a worse colonialism than that from which they are now emerging. That is the lesson behind so many of these new stamp issues of the

Syria's one regular and two air values in honor of the jurists constitute an attractive and well designed set which exemplifies the idea of the size and importance of the Afro-Asian area graphically.

the idea of the size and importance of the Afro-Asian area graphically.

The common design of all three stamps features, in the right half of the adhesive, an outline map of the vast land area of Africa and Asia, including all of the Arab world. In the left half is the Torch of Liberty, flanked by the Scales of Justice, under which is the laurel branch.

The top of the design is taken up with the bilingual country name, the French designation of value and air or postal inscription. The Arabic value and both the Arabic and French commemorative texts are tucked away under the right corner of the map. The texts translate as follows: "Conference of Afro-Asian Jurists. Damascus, 7-10/11/1957".

Colors are olive green for the 20 piastre post low value, blue green for the 30pi. airmail, and violet for the 50pi. airmail. There were 30,000 complete sets issued, 1,500 imperforate bonus sheets, and 1,000 official FDC's in the usual design (oversized representation of the stamp design without value, and bilingual text, in black). The first day bilingual commemorative cancellation repeated the commemorative text.

Ready for another stop on our Alphabetical Global Tour? Next port-of-call is Gibraltar. Britain's only Crown Colony in Europe, as Malta is now in a transition period towards a more independent status. (Speaking of Malta, keep in mind that this year's "George Cross" set of 3 values, 1½d, 3d and 1/-, will remain on sale for just one week, April 15 through 21. Used is our preference).

Gibraltar represents an an-achronism in this day and age, a fortress of one country on the territory of another. Control of this highly strategic "Rock" from which the western end of the Mediterranean Sea can be effectively "bottled up" was instrumental in making Britain the world's leading power throughout the 19th and during the early 20th century. 20th century.

Possession of such real estate Possession of such real estate as Gibraltar, the Suez Canal, Aden, Singapore, Malta, Ceylon, Cyprus and a few other choice locations gave Britain mastery of the seas in the days before airpower made the battleship almost as obsolete as the bow and arrow. arrow.

Gibraltar is tiny. The entire colony has a length of less than three miles and a breadth of three quarters of a mile, with a total area of 2½ square miles. In short, the area can be comfortably covered in a before-breakfast walk.

Gibraltar stands out as a bold mountainous promontory from the southwest of Spain to which it is connected by a low lying sandy isthmus a mile long and half-a-mile mile wide. Over the natural causeway an army of an attract causeway an army of army of an army of army of an army of an army of an army of natira-mile mile wide. Over the natural causeway an army of approximately 12,500 Spanish workmen pours every day from the Andalusian towns of La Linea, San Roque and Algeciras, returning to their homes at night. These towns have traditionally furnished Gibraltar's labor force.

The Gibraltar peninsula runs straight as a die from north to south to its pointed extremity, Europa Point. The highest point of the Rock is 1,400 feet.

The southern area is divided from the northern area by the Alameda Gardens. It comprises Rosia and the Admiralty quarters, stores and barracks. This portion of Gibraltar has an advantage over the town in that the air is fresher and there are more open.

On the east side of the Rock the only houses are those in the village of Catalan Bay, the in-habitants of which are chiefly fishermen of Genoese descent.

The climate of Gibraltar is temperate. During the winter months

the prevailing wind is from the west, often northwest and occasionally southwest. Snow or frost is extremely rare. The mean minimum and maximum temperatures during this period are 45°F, and 65°F. respectively.

The prevailing wind in the summer is from the east. A warm breeze laden with moisture, known as the "Levanter", strikes the eastern face of the Rock, condenses in the sky above and causes a cloud pall to hang over the city and hav. the city and bay.

During this period the climate is humid. The mean minimum and maximum temperatures in the summer are 55°F. to 85°F. respectively.

The rainy season is spread over the period from September to May. The annual average rainfall is 35 inches.

The civilian population at the beginning of the century reached a peak of over 20,000; this was followed by a decline beginning in 1908. The average total of resident civilians then remained between 17 000 and 18 000; a consistency of the contraction of the co tween 17,000 and 18,000; a census taken in 1931 showed a total civilian population of 18,736, inclusive of certain non-resident.

Upon the outbreak of the Spanish Civil War in 1936, the population was increased by the return of a number of Gibraltarians normally resident in neighboring Spanish territory, and by the en-try of a number of Spanish political refugees.

In 1940, the civilian population was again greatly reduced by the evacuation to the United Kingdom and elsewhere of some 16,dom and elsewhere of some 16,100 persons. Repatriation of these
commenced shortly before the
end of the war, and was completed by the end of 1951. In
all, 15,374 persons returned to the
Colony under the repatriation
scheme, a number of evacuees
having elected to remain in the
United Kingdom.

A census of the population was taken in July, 1951, and showed a total resident civilian population of 22,848, an increase of 4,-112 in the 20 years since the previous census.

An amending ordinance was brought into force in 1956, which changed the title of the "Immigrants and Aliens Order" to the "Right of Residence in Gibraltar Order" and made a number of changes in the law relating to rights of residence. Under the law, only Gibraltarians have a right of residence in Gibraltar.

\$2.00 WORLD-WIDE SPECIAL

While taking our inventory recently, we were surprised at the number of boxes and odd lots of foreign that had accumulated. These were mostly in estate purchased to get the U. S. which is our specialty. As all our time is spent taking care of U. S. customers, we have not been able to get this foreign sorted and ready for sale. The quickest way we could do this was to dump all these boxes into a large carton and after they were well mixed, make up packets of 500 by weight. We cannot list everything in details, but here is what we included:

Three file boxes of British Colonies and Canada Four file boxes of French Colonies, each containing several thousand large, attractive stamps.

Six file boxes of Europe — thousands of pictorials.

One box of Air Malls of the world, mint and used, approx. 14.000.

Three shoe boxes of older issues of the world bought by an approval dealer over 50 years ago. Four file boxes of South and Central America.

Two envelope boxes of modern pictorials selected from high grade mixtures bought during the past five years.

Fifteen unsorted smaller boxes of odds and ends. These include Philippines, Siam, Japan, Vatican City and many stamps that are hard to find in cheap assortments

Two storage boxes containing several thousand mint sets to retail at 10c to 25c each. We divided these so there are two in every lot.

We do not call this our "super-duper" this or that; we do guarantee you will be so pleased at the bargain price of TWO DOLLARS that you will tell your collector friends and will be sending repeat orders. When you buy this lot you are paying for stamps, not for high overhead and labor costs, mounting approval sheets, pricing, checking, etc. We do not know for sure if \$2.00 actually covers our costs on these but I will get a lot of satisfaction knowing that they are going to collectors all over the country who will enjoy them. They are doing no one any good while stored here in

Send payment in currency, personal check or whatever is most convenient. Orders are sent postpaid with commems. You are not taking any chances as prompt retunds will be made if you are not satisfied. No credit slips and no approvals.

Superimposed above the solar Superimposed above the solar disc and fiery solar prominences emanating from it is a segment of Michaelangelo's famous fresco "The Creation of Adam". Ervine Metzl, the designer of the stamp, explained, "In the small confines of a postage stamp we have endeavored to picture a man's wonder at the unknown, together with his determination to understand it and his need for spiritual inspiration to further his knowledge."

Across the top of the stamp is the wording "International Geophysical Year / 1957-1958," arranged in two lines, and across the bottom is "U. S. Postage 3c." All lettering is in white-face Gothic.

The stamp will be printed on the Giori rotary sheet-fed press, in two colors, black and orange, and perforated on an L-type machine. The stamp will be 0.84 by 1.44 inches in dimension, arranged horizontally, and issued in sheets of 50 with an initial printing of 120,000,000 authorized.

Mr. Metzl has been a member of the Citizens' Stamp Advisory Committee since its inception in 1957. He attended the Art Institute in Chicago, where he was born, and studied in Munich, Rome, Paris and London. He is presently a free lance artist with studio at 20 Park Ave., New York, and enjoys high repute as a book illustrator and designer. He is a teacher, editor and writer. GENERAL COLLECTING (Continued from page 1)

For 1957 Commems

The 1957 Supplement pages for the Linn Unit System Loose-Leaf Album have been received from the printers and are now ready for distribution. These will hold all the commemoratives issued in 1957 on two pages and have an identical blank page for such use as the collector wants to make of it. The total of three pages is 35c plus 10c postage.

Also on hand is a supplement for the coil stamps of the Liberty Series — one page on which are spaces for a single and coil pair of each of the three denominations — 1c, 2c and 3c. There is an extra bank page in this unit. It sells for 20c plus 10c postage.

Pages are of 100-pound Beckett stock, punched for a standard three-ring loose-leaf b in d er. Places for the stamps have a boxed border in which are a picture of the design and a note as to the denomination and color. Above and below the box are a dedicatory inscription and several words about the design and commemoration.

Pages are tastefully laid out to give a maximum eye-appeal. In

that in order to obtain stamps he needs, he must also acquire a certain amount of extraneous material. This is particularly the case when you buy at auction. A lot of this stuff will fit directly into your general collection.

Here are some personal opinions. First, I'd say that in general you will not find it profitable to sell your duplicates to dealers or try to dispose of them at auction. I don't think the dealers and auction houses will shoot poisoned arrows my way

at auction. I don't think the dealers and auction houses will shoot poisoned arrows my way for this statement, because I am, of course, taking about small lots of perfectly respectable but ordinary garden variety stamps, not big collections or rarities.

If you have collector friends, or belong to a stamp club whose members are active "swappers," go to it. It can be a lot of fun and bring you many enjoyable social contacts, entirely in addition to philatelic pleasures. Or you may discover a better organized, steadier method of "swapping" via the stamp exchanges. Each one operates a little differently, but in general here's how they work:

You mount your duplicates (no junk) on approval sheets or in booklets, mark under each the Scott catalog number and price, and send them in to the Exchange. The Exchange manager then sends you other members' stamps, similarly mounted, from which you choose what you need for your own collection.

It's as simple as that! The fee is nominal. Aside from postage both ways, you usually "pay" only a deduction of 10% from the catalog value of your entries. A few charge a small cash fee in addition.

and each must be properly addressed. The outside envelope to the Postmaster should be endorsed "FIRST DAY COVER GEOPHYSICAL YEAR STAMP".

UNION STAMP CO. 147 West 42nd St., New York 36, New York

I have dealt with six of these exchanges during the past year, all of them Linn's advertisers. If you're interested in finding out more about stamp exchanges, you might try some of those listed in the classified section of this issue.

It is important to realize, however, that the stamp exchanges
are designed primarily for GENERAL collectors. It's unlikely
that you will locate anything in
their offerings which fills holes
in a well developed specialty.
And even if you're just beginning a certain philatelic field,

you'll waste your time and post-age if you join with the idea of taking stamps of just one coun-try or area.

NEW DENOMINATIONS

Of course the 15c and 25c val-ues have been announced, but have you read all the news? The newspapers in commenting on the postal increases have said, "It is probable that bulk rate mailing will be increased from 11/2 to 21/2."

Remember when I wrote that this was a possibility some months ago? Then how about the revised 8c stamp—is it a part of the current series or will both types of the 8c Liberty be produced?

Remember the 1½c front face Harding, the 3c Stuart and the 4c Taft—regular stamps, commemoratives or just what were they? Pity the poor collector who has drawn up pages for his Liberty set. Moral: stick to faint quadlined pages and play safe.

NEW BUREAUS

George Klein reports the fol-lowing; the first number is the Noble, the other is the Gunesch-Noble, the other is the Gu Coda: 2c Los Angeles 733/114 5c Los Angeles 776/117 1c Salinas 721/128 1c Chicago 721/128 3c Chicago 724/131 2c Rockford 773/114

2c Rockford 773/114
1c Baton Rouge 771/112
2c Baltimore 773/114
1c Durham 771/112
3c Seattle 774/115
2c Spokane 773/114
Mr. Klein reports that a 7c value is out and today's mail brought a 7c Liberty Bureau from St. Paul. This was reported by Hans Schenkelberg of Green Bay, Wis. Mr. Klein also reports that all of the horizontal stamps with bureau imprint so far have read UP. So this seems to be the trend, at least of now.

BULLETIN BOARD

The South Calif. bulletin mailed with 1c Liberties from Costa Mesa, Calif. The "Bulletin" reports 637 Towns and 1085 Types for Calif. The "Keystoner" bulletin of the Western Pa. club mailed with a 2c Liberty from Allison Park, Pa. Type seems to be one of the old rubber handstamped items.

Here is one for the book: Bob

2c Liberty from Wheeler, Ore. The Printed Dated Club bulletin from Rockford, Ill. with a 1c Prexy integral and an old 1c bureau and I mean a 1927 issue bureau—both dated of course.

SPAIN. The day for Archangel Gabriel, patron of the Spanish dealers and collectors, was March 24. This day has now been chosen as Stamp Day instead of October 12th as previous. The Stamp Day issue this year will employ a set of 10 Goya pictures as the respective designs of the set: 15, 40, 50, 60, 70, and 80c, and 1, 1.80, 2, and 3 Pesetas.

A 1.80Pts. green stamp was issued recently honoring Gonzalo Fernandez de Cordoba on the 400th anniversary of his birth. He was a famous Spanish general and once served as the general in chief of Isabella and Ferdinand and.

Hungarian Savings Set Has Topical Tone

stamped items.

Here is one for the book: Bob Briggs managed to dig up some of the old 2c Black Hardings from Athol, Mass. and mail the February issue of the "Precancel Yankee". Old timers will remember these stamps, and I'll bet a lot of newcomers will be tickled with them.

Out in the Northwest the "Newsletter" was mailed with a 2c Liberty from Wheeler, Ore. The Printed Dated Club bulletin from Rockford Ill with a 1c.

N. Y.

The designs will appeal to topicalists in many fields. The 20 filler lowest value shows a Madonna-like pose of a mother and babe, while the 30f. depicts an old man enjoying comfort through the results of past thrift. Schoolboys with savings stamps are the subject of the 40f. and the 60f. depicts the fable of the fiddling cricket and the industrious ants. bureau—both dated of course.

As a trailer we have a notice from the Illinois club starting to boost the coming August convention. This was mailed with a 2c Liberty from Lake City, Ill. An auction list from a leading auction dealer in with a 1½c Prexy from Burbank, N. D.

A price list from down south showed up, offering processed fruit and precancels. (That's a good mixture, isn't it?) This was mailed with a ½c Liberty Local and a 1½c Prexy bureau coil from Phenix City, Ala. Addresses of above for return postage.

As a trailer we have a notice donna-like pose of a mother and babe, while the 30f. depicts an old man enjoying c om for the through the results of past thrift. Schoolboys with savings stamps are the subject of the 40f, and the 60f. depicts the fable of the fiddling cricket and the industrious ants.

The forint value shows a honey been and comb on the 1ft. The highest value of the set, the 2ft, depicts one hand passing paper money to another. The inscription in Hungarian "Mutual Assistance Savings Bank" implies a message of the benefits of savings.

The Early Philatelic Forgeries Of All Countries
A flood of counterfeit stamps (many of them well done) appeared 90 to 100 years
and thousands of these old-time phonies are nestling unauspected in American
ction because their proud owners have never been alreted to the existence of such

collection because their proud owners have never been alerted to the existence of such ancient "dogs".

These early-day fakes made to deceive collectors were actually chronicled and minutely described in five famous works published in the 60's by the pioneer dealers and writers Moens, Lewes, Pemberton, Stourton and Dalston. Their treatiess have however, been off the market since about 1870, and have been bringing up to \$75 a set in recent literature sales.

After 90-odd years, these classic works have been reprinted under the collective title shown above. This omnibus volume, edited by Lowell Ragatz, carefully describes more than 750 old-time forgeries from 80 stamp issuing areas, runs 224 pages and is bound in tan twittex. A "must" for serious collectors and club libraries, it will save the average collector many times its price of \$2.85 postpaid (Ohio customers add 96 sales tax). Add 55 bank charge if remitting by check.

BEAUTIFUL SOUVENIR

Inquiries as to whether we have any of the Topical Type Folders from 1957 A.S.D.A. show in New York prompts us to offer our remainder stock.

This folder was the hit, again, of the ASDA show in New York last November. It has spaces for a single stamp and a first day cover. When properly placed in this folder it makes one of the most attractive items we have had the pleasure to handle.

The folder is of our usual standard size enclosed in a plastic envelope. They are $8\frac{1}{2} \times 10\frac{1}{2}$ - 150 lb. Kromekote Stock with smooth edges. There is one full page devoted to the story behind the stamp and its purpose.

There are two ways of getting one of these attractive

1. Send us a new subscription and payment \$1.50 for U. S.; \$2.00 for Canada; \$3.00 for Foreign; upon which we will send you a souvenir Folder FREE. (Please specify with your subscription.)

2. They can be purchased at 25c each, postpaid. (Above folder does not include stamp or first day cover.)
